"... you het today's farmer has to be a pretty smart businessman. He needs up-to-date advice on using energy to farm better, and helping our farm customers do just that is rarm customers do just that is my job. Today, electric energy does most of the work of all those hired hands who worked on the farm years ago. What's more, electric energy for drying crops, feeding livestock and warming buildings help the farmer turn out better quality products all the time. It's still hard work, but farming and farm living have progressed a long way in just a few years . . . and it's kind of satisfying to know we've played a part in helping it happen . . .

In a free-for-all scramble with Howlett in the field, Dunne could rate as almost a sure winner. If it should end up a two-way fight between Dunne and Simon, the race would be the most hard-fought battle for Illinois Dennocrats since Henry Horner back in 1906. Republicans are hoping this is what will happen.

His hiring of Sangamon County Democratic County Chairman Tom Owens has given him a headstart in lining up other Downstate county chairmen.

And the organization of the Paul Simon for Governor Committee headed by three organizers, all identified with U. S. See. Addia E. Stevenson, also gives Simon errail or "eggs-head" faction of Illinois Democrats.

SCHERMER BULLETIN: We finished up our Third Week last week and it was just as fine as our first two. People are still commenting about how glad they are that we're back in business.

Still recuperating from a recent illness is our chief stock man, Art Grissman. He is sadly missed by all especially those who are trying to fill his shoes. It seems like there are two men missing, not just one.

We have taken a step in the right direction so far as service is concerned. We added two new checkers to the force and promoted one bag boy. So, that fast checkout service are Schemer's should be even faster now.

Finally, we have two new items to report. First for all you ecology minded customers, you'll notice SPLASH detergent for hot or cold water. SPLASH contains Borax and no phospheres and a 20-lb. box costs just \$2.89

Also, for anyone who wants to stock up on fresh fruits, especially good right now, Schermer's is one of the few places which carries a complete line of canning supplies, preservatives, lids and jers of all step.

That's about it. Catch the column next week for more news!

City's Diamond Jubilee Off to a Fine Start; Pageant, Other Events Well Worth Attending

Just as fortune has smiled on Granite City most of its 75 years, the weather smiled Saturday as observance of the city's 1896-1971 Diamond Jubilee began.

Earlier rain halted for the huge parade. And the partly overcast sky kept the temperature in the 70s instead of the 90s which had been predicted.

It was apparent from the number and enthusiasm of the paraders and parade.

ture in the 70s instead of the 90s which had been predicted.

It was apparent from the number and entusiasm of the paraders and parade watchers that Granite Cityans are proud of the municipality and happy to be playing a part in the commemoration of such a milestone in its history.

The Jubilee ball Saturday night also was well attended, with the couples attired in clothing reminiscent of the "gay "90s" era.

Tonight, the historical pageant, "Profiles in Progress," will be presented on the Wilson Park softball diamond, where additional seating capacity has been provided. Performances will continue through Saturday night. The narrative, specially prepared to trace the history of Granite City, begins in the early 1700s and ends in 1971. Large numbers of appropriately costumed actors and dancers will dramatize the story.

costumed actors and dancers will dramatize the stry.

For Our Father's Day was observed yearFathy, and many other major events are schedused during the Diamond Jubilee, which is contificating with Business and Industry Day today,
Ladies Day tomorrow. Police and Firemen's
Day Wednesday, Youth Day Thursday, Pioneer
Day Friday, Family Day Saturday and Fun
Day on Sunday, Aug. 29.

Such an occasion occurs only rarely in
one's lifetime and we urge all to take a direct
tole in the Diamond Jubilee by attending the
historical pageant, visiting the rides and concessions in Wilson Park and participating in one
or more of the special activities which are scheduled.

uled.

There is plenty of room for everyone, and the 75th anniversary will mean much more to each Granite Cityan if he can look back to memories of his own pleasurable attendance at the Jubilee.

Further encouragement to MRF planning is
given by the proposal for a performing arts center and exposition hall in Madison-St. Clair
Counties. Proposed for the local university,
door, outdoor and combination indoor-outdoor
programs.

Aided by the 32,123 turnout for the final
night of the 1971 season Aug. 16, an appearance
by "The Who" musical group, Festival attendance showed a 17.7% gain over 1970. And
there was a balance between revenue and costs
— aided by contributions from the public, a

I regard this as one of the most important cultural assets of our state."

of the most important cultural assets of our state.

A final point on the Festival's solid prospects for the future is its high batting average in handling large folk-rock music crowds—coupled with the audiences' generally good respectively.

On at least two occasions, the lke and Tina Turner program and The Who concert, there were audience excesses—including invasion of the tent aides, blocking the view of 'those in reserved seats. This situation should be solvable, and it rates a place on the list of topics to discussed in the season of the season of the dark hours experienced during the early development of the project.

As the governor says, it is one of Illinois 'most important cultural assets'—an asset worthy of being fostered and perpetuated.
